

Cameron Cornforth

ccornforth@csumb.edu | (808)-731-9288 | Marina, CA

EDUCATION

California State University, Monterey Bay, Seaside, CA

Expected Graduation: May 2027

Bachelor of Science, Statistics and Data Science

Current Cumulative GPA: 4.0

RESEARCH INTERESTS

Biostatistics - Applying statistical techniques to scientific research in health-related fields, including medicine, biology, and public health, and the development of new tools to study these areas.

Genomics - Studying genomes in their entirety and the large amounts of corresponding data generated from them, with application in health outcomes at the population level.

Biomathematics - Using mathematical models, algorithms, and simulations to understand biological phenomena better.

RELEVANT COURSEWORK

STAT 410 - Generalized Linear Models

2026

- Fit linear models using least squares regression and maximum likelihood estimation for general linear, logistic, and Poisson models.
- Assessed and evaluated the assumptions of the model, including multicollinearity, linearity, and assumptions associated with residuals of the model.
- Used statistical programming software (R) to fit and evaluate models, produce graphics, and create reproducible analyses and reports.

STAT 335 - Data Simulation and Analysis

2025

- Implemented and evaluated appropriate statistical models to address research questions.
- Applied concepts such as ANCOVA, Logistic Mixed-Effects, and Survival Analysis to real-world datasets.
- Utilized simulation in R to evaluate bias, variance, statistical power, and coverage probability.

STAT 310 - Data Visualization

2025

- Created dynamic data visualizations using R/Quarto to convey underlying relationships, correlations, and data distribution within datasets.
 - Showcased interactive dashboards using spatio-temporal data to address primary research questions.
 - Harnessed key concepts in data visualization, such as Gestalt Principles and elements of design, to highlight aspects of visualizations.
-

EXPERIENCE

Statistics SI Leader (Tutor)

Cooperative Learning Center, California State University Monterey Bay (CSUMB), Seaside, CA August 2025 - Present

- Lead weekly concept and topic sessions to encourage healthy study habits for students.
- Collaborate with fellow SI leaders and coordinators to create relevant study resources for module content.
- Explain introductory-level statistical concepts in both individual and group settings.

Research Assistant/Intern

Cascadia Research Collective Project, Lana'i, HI

July 2024

- Conducted field data collection for sea state conditions, event timeframe, and wildlife encountered.
 - Handled and processed marine mammal biopsies for laboratory genetic analysis.
 - Created tables in Excel of pilot whale dive rates using telemetry tag data.
-

ADDITIONAL EXPERIENCE

CURE Research

California State University Monterey Bay (CSUMB), Seaside, CA

January - May 2025

- Created and analyzed transects in coastal dune habitat to report the abundance of native plant species.
 - Used regression analysis to indicate the decreased percent coverage in *E. cicutarium* over time.
 - Worked with classmates in the field to properly collect plant coverage data by random sampling methods.
-

VOLUNTEER EXPERIENCE

Habitat Stewardship Project of Monterey, Marina, CA (25 hours)

January - May 2025

- Volunteered in greenhouses for native eco restoration and environmental awareness.
 - Contributed to HSP's social media page, creating informational graphics about native/invasive species.
 - Led groups at local outreach events in invasive species removal and native replanting.
-

SKILLS

- Proficient in R for creating intricate data visualizations and running simulations using probability models.
 - Efficiency in diagnosing students' errors in R Markdown and Quarto documents.
 - Effective in drawing inferences from statistical analysis using thorough explanations citing data.
 - Medium-level technical statistical writing skills.
 - Passionate about deconstructing complex concepts for students to understand in their own way.
 - Prompt communicator with a reputation for timely response.
-

AWARDS AND HONORS

- CSUMB Dean's List 2023-2026
- CCAA Elite 13 Award
- CSUMB Men's Cross-Country/Track and Field Team Captain
- 2025-2026 CSUMB Scholar of the Year Award
